

(NT) Encounters: Devotions On (Awesome) People From The New Testament Overview

What is the Bible to your students? Is it just a history book? A collection of moral thoughts and sayings? Or merely a bunch of glorified fairytales? Hopefully, it's none of these. You want students to see that, among other things, the Bible is the record of God's interaction with **REAL** people. And by taking a look at these people's lives, they can learn a ton about God. And about themselves.

(NT) Encounters is a journey through the lives of some of the most interesting people from the New Testament. In every encounter, students will focus on one key truth from the character's life. And they'll be challenged to apply this truth to their lives, changing the way they engage with God.

(NT) Encounters includes:

- 4-weeks of interactive devotions
- A "key truth" for every character
- Guided application for each day

Here's A List Of The Characters Your Students Will Encounter:
